

ENTERPRISE AI READINESS QUICK ASSESSMENT

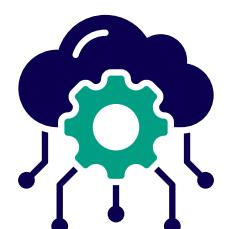

Is Your Organization Architecturally Ready for Scalable AI?

Evaluate your enterprise readiness across four critical areas.

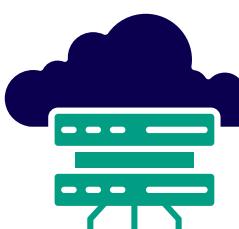

Data Foundation

- Enterprise data accessible
- Data governance in place
- Real-time data pipelines
- Analytics platforms integrated

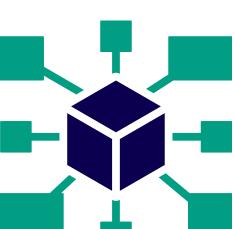

Integration & Platforms

- Standardized APIs
- Unified enterprise data layers
- Seamless system-to-system integration
- Automated cross-platform workflows

Cloud & Infrastructure

- Scalable cloud architecture
- Hybrid or multi-cloud strategy defined
- Cost governance and monitoring
- Embedded security and compliance

Architecture Strategy

- Defined enterprise architecture strategy
- Digital transformation roadmap
- Phased modernization approach
- Enterprise-wide governance framework
